Services and Solutions

- **Payroll restructuring Analysis.**

We offer attractive benefit structures to your employees, optimizing the tax load on their income.

- **Registration before labor authorities.**

Part of the obligations that companies must meet include the registration before social security and state tax authorities, among others.

- **Payroll processing.**

We manage your payroll processes optimizing the time spent in calculating taxes and social contributions of both employees and the company. We adapt to your needs, preparing the payroll be it either weekly, biweekly, monthly or for the special periods that your company needs.

- **Interface with your systems.**

We adapt to your incidence control systems.

- **Expat taxes in Mexico.**

For foreign workers (Expats), we create a mirror payroll, facilitating the compliance with Mexican authorities as well as the ones in their home country.

- **Obligation compliance.**

An important part of labor obligations is filing the statements with the SAT (Secretary of Tax Administration). With our compliance management we help with the timely filing of your annual processes.

- **Work risk premium annual statement.**

Payroll Plus MX will support your company with the annual work risk premium statement.

- **Opening bank accounts in Mexico.**

We help foreign companies to open and manage their bank accounts in Mexico.
